EDUCATION

FORDHAM UNIVERSITY, New York, NY

Master of Science in **Data Science** · GPA: 3.40 — August 2026

Bachelor of Science in **Computer Science** · Minor in **Business Administration** · GPA: 3.64 · *cum laude* — May 2025

EXPERIENCE

TransPerfect – Application Specialist II, Trial Interactive — September 2025 – Present

- Provide technical solutions and support across enterprise life sciences platforms including eTMF, CTMS, QDMS, and Global Learn, and configuring workflows for project managers and enterprise clients
- Manage 15-20 weekly technical incidents and escalations while maintaining ~95% SLA/OLA compliance, performing issue triage and root-cause investigation and collaborating with Engineering, QA, and Solution Engineering
- Coordinate client meetings and screen-sharing sessions to diagnose application-level issues, translate business requirements into system configurations, and prioritize technical issues through established processes

Madison Square Garden Entertainment – Information Security Analyst Intern — May 2024 – August 2024

- Analyzed security logs and user activity data to identify and flag high-risk profiles weekly, strengthening cybersecurity operations using Microsoft Azure, Microsoft Defender, and Expel
- Translated complex security findings into actionable insights, collaborating with cross-functional teams to investigate and escalate verified threats, including suspicious IPs, firewall logs, endpoint activity using SentinelOne and Expel
- Improved incident response efficiency by ~20%, identifying threat patterns and optimizing escalation workflows across EDR/MDR systems

Consolidated Edison — IT Service Management Analyst Co-Op — August 2023 – May 2024

- Improved ticket triage efficiency by 15% and resolved 50+ monthly escalations, leveraging ServiceNow workflows and coordinating with cross-functional teams to maintain reliable enterprise IT operations
- Leveraged ServiceNow data to build Excel dashboards and Tableau, cleaning and analyzing 500+ tickets to generate insights that reduced average resolution time by ~23%
- Collaborated with QA and cross-functional teams in Agile sprints to conduct sandbox testing, troubleshoot application issues, and perform root-cause analysis, reducing post-release errors by 30%

Fordham University — Tech Support and IT Service Desk Assistant — January 2022 – May 2025

- Delivered IT support for 40+ weekly requests from students, faculty, and staff, troubleshooting technical and security issues while minimizing disruption to academic operations
- Improved user experience by reducing phone wait times by ~33% and resolving 75% of ServiceNow tickets through efficient troubleshooting and user guidance; trained new team members to improve team performance

TECHNICAL PROJECTS

- **SalahCircle | Full-Stack Web Application (Python, Flask, SQLite, Docker, REST APIs)**
  Developed and deployed a full-stack web application integrating REST APIs, SQLite, and Google Gemini AI, utilizing Docker, Kubernetes, and Google Cloud for containerized application deployment
- **ScoutIQ | AI-Powered Soccer Recruitment Platform (Python, XGBoost, Scikit-learn)**
  Developed a data-driven recruitment system analyzing over 5000 soccer players, integrating machine learning, similarity algorithms, and predictive analytics to identify undervalued talent
- **Wearable Health Analytics Dashboard (MongoDB, Python, Streamlit)**
  Built an interactive web application integrating WHOOP and Fitbit datasets using MongoDB and Streamlit to analyze and visualize sleep, recovery, and activity trends

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, C++, SQL, HTML, CSS
- **Frameworks and Technologies:** React, Flask, Streamlit, REST APIs
- **Databases and Cloud:** MongoDB, SQLite, Google Cloud Platform (GCP), Docker, Kubernetes
- **Enterprise Applications and Tools:** ServiceNow, Trail Interactive (eTMF, CTMS, QDMS, GL), Microsoft Azure, Microsoft 365
- **Data Analytics and Visualization:** Tableau, Excel Automation, ETL, Data Modeling, Workflow Automation
