EDUCATION

FORDHAM UNIVERSITY, New York, NY

Master of Science in **Data Science** • GPA: 3.70

May 2026

Bachelor of Science in **Computer Science** • Minor in **Business Administration** • GPA: 3.64 • *cum laude*

May 2025

EXPERIENCE

TransPerfect – Application Specialist II, Trial Interactive

September 2025 – Present

- Serve as a Tier 2 Application Specialist for Trial Interactive (TI), supporting eTMF, CTMS, QDMS, and Global Learn by configuring system workflows and resolving complex technical issues to ensure seamless client operations
- Deliver high-level technical solutions to enterprise clients by resolving 30–40 premium-tier tickets while maintaining ~95% SLA/OLA compliance, and analyzing issue trends to reduce recurring workflow and configuration issues by ~15–20%
- Translate technical and business requirements into structured system configurations, improving product adoption and reducing recurring support cases by ~20% through analysis of user behavior and ticket trends

Madison Square Garden Entertainment – Information Security Analyst Intern

May 2024 – August 2024

- Analyzed security logs and user activity data to identify and flag 50–60 high-risk profiles weekly, strengthening cybersecurity posture using Microsoft Azure, Microsoft Defender, and Expel
- Translated complex security findings into actionable insights, collaborating with cross-functional teams to investigate and escalate verified threats (e.g. suspicious IPs, firewall logs, endpoint activity) using SentinelOne and Expel
- Improved incident response efficiency by ~20%, identifying threat patterns and optimizing escalation workflows across EDR/MDR systems

Consolidated Edison – IT Service Management Analyst Co-Op

August 2023 – May 2024

- Enhanced client service and trust by improving ticket triage efficiency 15% and resolving 50+ monthly escalations, while optimizing ServiceNow workflows to support cross-functional and offshore vendor teams
- Leveraged ServiceNow data to build Excel dashboards and Tableau, cleaning and analyzing 500+ tickets to generate insights that reduced average resolution time by ~23%
- Partnered with QA teams in Agile sprints to conduct sandbox testing and root cause analysis, cutting post-release errors 30%, and ensuring reliable, improving overall system performance

Fordham University – Tech Support and IT Service Desk Assistant

January 2022 – December 2022

- Delivered IT support for 40+ weekly requests from students, faculty, and staff, resolving technical and security issues and ensuring minimal disruption to academic operations
- Improved user experience by reducing phone wait times by ~33% and resolving ~75% of ServiceNow tickets through efficient troubleshooting and user guidance and trained new team members to enhance support team performance

DATA PROJECTS

Portfolio: rafiworks.com

• **Tracking the Flames | Wildfire Trends and Visualization (Tableau, SQL, ETL)**

Built an interactive Tableau dashboard analyzing 1.9M+ wildfire records to identify temporal and geographic trends

• **Soccer Player Market Value Prediction | Machine Learning (Python, Scikit-learn, Pandas)**

Developed a Random Forest model using 17K+ players and 51 features to predict market values of the players

• **Personal Health Analytics Dashboard (MongoDB, Python, Streamlit)**

Built a dashboard integrating my personal WHOOP data + random 30 Fitbit user's data to analyze sleep, recovery, and activity trends

+ 6 additional projects available on portfolio

LEADERSHIP AND INVOLVEMENT

- **President, Fordham Muslim Student Association**, Led inclusion-focused initiatives as President of Fordham MSA, building trust and engagement with 80–100 students through open discussions, workshops, and 5–6 events per semester (2024–2025)
- **Charity Week Organizer, Fordham MSA**, Co-led 3 fundraising campaigns, to raise \$48,000+ for global humanitarian causes (2022–2025)
- **Participant, Fordham Global Outreach**, Completed an 8-day international humanitarian project in the Dominican Republic (March 2024)

TECHNICAL SKILLS

- **Programming and Web Frameworks:** C++, Python, JavaScript, HTML/CSS, React, Flask
- **Data and Machine Learning:** Data Modeling, Data Cleaning, Feature Engineering, ETL, data wrangling, Workflow Automation
- **Data Visualization and Databases:** Tableau, Excel (PivotTables, Lookups, Automation), Dashboarding, SQL, MongoDB
